

One Click to Highlight or Clear a Value in a Field

Are you tired of trying to highlight or clear a value to so you can replace the contents of that field? If so, try this sure fire way to replace the entire contents of the field in one quick click.

1. Click on the field's Label Name (Click where Red Arrow is Displayed). Note how the entire field automatically highlights?
2. Now type your desired data in the field. Normal Windows rule applies, everything highlighted is replaced when you type.

1120-0004 · Chicken Breast, Raw Bone In
